Famous for	Climate strikes

## **Greta Thunberg**

Greta Thunberg is a famous Swedish ecologist activist. Her birthday is on the 3rd of January and her star sign is the capricorn.

Greta is 17 years old and her parents are the singer Malena Ernman and the actor Svante Thunberg. She has an attention deficit and this information is often used against her.

Greta becomes famous in 2018 for her regular climate strikes in front of Stockholm Parliament. She wants that the Government reduces carbon dioxide emission and her sit-in ever gains media's attention and now she makes similar strikes in many other countries.

Now she campaigns for climate warming worldwide. In 2019 the american magazine "TIME" names her "person of the year".

Many people wants a nomination for the Nobel Peace Prize for Greta.
